"The Secretary said that he would not hesitate to issue currency to any banks making application and qualifying under the act.

"The Secretary explained that the new currency is, of course, exactly like existing national bank notes, and that if such currency should be issued there is nothing in the notes or in the manner of their delivery to indicate that they are special currency issued under the Aldrich-Vreeland act.

"National currency associations have been organized in various parts of the country, from Massachusetts to California, including the large cities of New York, Chicago, St. Louis and others, and are now qualified to take the benefits of the act. So that the national banks and these currency asso ciations, upon compliance with the act, may quickly receive additional currency to the extent of \$500,000,000, if they require it, upon application to the Treasury Department. The Aldrich-Vreeland act expires in June, 1914."
